## Consent for Release of Records

For the sole purpose of determining whether attending Wisconsin Virtual Learn a virtual charter school located in the Northern Ozaukee School is in the best interest of my child, I hereby allow my child's current school district of attendance to release copies of all pupil records requested for review by the Northern Ozaukee School District (PI 36.12(1)(c)).

*(c) In considering an alternative application, the nonresident school board may not request and a public school board may not provide any pupil records from any public school district or private school without written consent from the pupil's parent, except records described in par. (a). The nonresident school board may not deny an alternative application based on a parent's refusal to consent to release of additional records.*

Parents are asked to provide the following student information, to be considered for enrollment with Wisconsin Virtual Learning: **attendance, grade report, (High School transcript) and any discipline reports if applicable.** WVL staff will only contact the current school of attendance if the parent is unable to provide this information.

My consent for release of these records expires immediately upon the Northern Ozaukee School District's determination of acceptance or denial of my child's enrollment.
